

Mummy, Daddy, Valmorel and me

Valmorel is a **Family Plus** labelled resort, and has put everything in place to welcome children and their families in the best possible way : welcome, entertainment, activities, adapted prices and services.

Doucy is the official **Gulli resort**, where children will be delighted with the entertainment and structures on offers, such as the connected toboggan run, Doucy Adventure, where children will recognise their favourite characters. TV host Joan hosts games several times during the season: In Ze boites evening and Gulli Party. Gifts galore and a guaranteed ambiance.

Kids skating and Biathlon courses

To become the next Martin Fourcade, Naves is where it's at !

During the French February school holidays, there will be **skating and biathlon courses for children** from 7 to 14 years old.

Outings are supervised by a state qualified instructor and all equipment is provided.

Doucy adventure

At the top of the Combelouvière chairlift, this is **one of the largest connected toboggan runs in Europe**, with a descent of more than 2.5 km : guaranteed excitement and laughter for young and not so young. It's theme is **the wolf** : simply download the application and check the QR codes on the signboards to play. Sunny picnic areas with barbecues are available where everyone can picnic in the sun and enjoy the panoramic views of Valmorel.

Pirate village

On the ski area, a large area is reserved for **families, with children** from 2 to 10 years old: the pirate village ! There are games with a pirate castle: slides, a «spider» trail, a roundabout, secret passages, a «snowball» wall.

This area is brought to life by our **Captain Crozet** from Saturday to Wednesday: coconut stall, treasure hunt, etc.

Tables, benches and deck chairs are available to enjoy pleasant family moments in the sun.

Pirate path

The pirate path is an **easy and fun piste** with gates, gongs and turnstiles and pictures of Captain Crozet! Ski and have family fun in Valmorel following the footsteps of pirates.

Professor Morelus

Our entertainment staff member, Matthieu, turns into professor Morelus, a **mad scientist** who makes his little subjects travel in time!

Morelus becomes every child's friend, and offers them a **party, treasure and riddles** : travel back to the 80s, to the time of treasures and into the future!

Programme available on the website and in the resort every week.
